CERTIFICATE OF DESIGN ASSESSMENT

This is to Certify that a representative of this Bureau did, at the request of
AIGI ENVIRONMENTAL INC. - NANJING

assess design plans and data for the below listed product. This assessment is a representation by the Bureau as to the degree of compliance the design exhibits with applicable sections of the Rules. This assessment does not waive unit certification or classification procedures required by ABS Rules for products to be installed in ABS classed vessels or facilities. This certificate, by itself, does not reflect that the product is Type Approved. The scope and limitations of this assessment are detailed on the pages attached to this certificate.

PRODUCT: **Gasket**

MODEL: **Rubber/PTFE/Graphite/Fiber Gasket**

This Product Design Assessment (PDA) Certificate 14-SQ1245716-PDA, dated 05/Sep/2014 remains valid until 04/Sep/2019 or until the Rules or specifications used in the assessment are revised (whichever occurs first).

This PDA is intended for a product to be installed on an ABS classed vessel, MODU or facility which is in existence or under contract for construction on the date of the ABS Rules or specifications used to evaluate the Product.

Use of the Product on an ABS classed vessel, MODU or facility which is contracted after the validity date of the ABS Rules and specifications used to evaluate the Product, will require re-evaluation of the PDA.

Use of the Product for non ABS classed vessels, MODUs or facilities is to be to an agreement between the manufacturer and intended client.

NOTE: This certificate evidences compliance with one or more of the Rules, Guides, standards or other criteria of ABS or a statutory, industrial or manufacturer's standards. It is issued solely for the use of ABS, its committees, its clients or other authorized entities. Any significant changes to the aforementioned manufacturing process without approval from ABS will result in this certificate becoming null and void. This certificate is governed by the terms and conditions as contained in ABS Rules 1-1-A3/5.9 Terms and Conditions of the Request for Product Type Approval and Agreement (2010).

Ratings:

See Attachment

Service Restrictions:

Unit Certification is not required for this product. If the manufacturer or purchaser request an ABS Certificate for compliance with a specification or standard, the specification or standard, including inspection standards and tolerances, must be clearly defined.

Comments:

1. The Manufacturer has provided a declaration about the control of, or the lack of Asbestos in this product.
2. Except metal/graphite gasket, all the others are NOT suitable for using in the fire-fighting system, shell connection services and lubricating/fuel oil tank valves subjected to a static head of oil, unless the gasket materials are to be tested of passing a recognized fire test acceptable to the Bureau [Some examples of recognized fire tests acceptable to Bureau are: (1) U.K. DOT Appendix D Fire Test(test temp: 1000 degrees Fahrenheit); (2) API 607 Fire Test (test temp: 1250 degrees Fahrenheit); (3) IACS UR P2.11.5.5.6 Fire Endurance Test (test temperature 1472 degrees Fahrenheit)].

Term of Validity:

This Product Design Assessment (PDA) Certificate 14-SQ1245716-PDA, dated 05/Sep/2014 remains valid until 04/Sep/2019 or until the Rules or specifications used in the assessment are revised (whichever occurs first).

This PDA is intended for a product to be installed on an ABS classed vessel, MODU or facility which is in existence or under contract for construction on the date of the ABS Rules or specifications used to evaluate the Product.

Use of the Product on an ABS classed vessel, MODU or facility which is contracted after the validity date of the ABS Rules and specifications used to evaluate the Product, will require re-evaluation of the PDA.

Use of the Product for non ABS classed vessels, MODUs or facilities is to be to an agreement between the manufacturer and intended client.
