

SUPERCHEM 1611

*Extreme Pressure Grease,
Calcium sulfonate complex, Multi-purpose*

SUPERCHEM 1611 is a calcium sulfonate complex grease designed for high temperature bearing applications. It's outstanding stability and water washout resistance make it an ideal choice for applications in wet, hot and corrosive environments.

Features

- ***Color: Dark Red***
- ***Dropping Point: >300°C (NLGI 00 ~ 4)***
- ***Shear Stability: 10,000 times +2%; 100,000 times +3%***
- ***Water Washout: 0 ~ 1%****
- ***Continue working Temp.: -20 ~ 200°C***
- ***Copper Corrosion Test (GB/T 7326): Pass***
- ***Four Ball Weld Test (ASTM D2596): ≥500KG (1100 Lbs)***
- ***Four Ball Wear Test (ASTM D2266): <0.5mm***

** Lab results for individual production lots tested; some variability will occur*
